Women and Micro-Enterprise Project

We can help you to support
women within your
community to start up or grow
their own business.

Information for Potential Business Hosts

Women and Micro-Enterprise Project...

- ◆ Are you working with or in touch with women?
- ◆ Would you like to enable them to gain the knowledge and skills to start or improve their own business?

Business Hosts can be any voluntary group in a local community or a not-for-profit special interest group that is keen to promote business start-up and/or business development amongst its women members

WAM

Our aim is to help women to set up their own business or, if they already have a business, to help them to make it grow and become more successful

As a business host we will help you to access a range of business support and personal development services on behalf of women in your community

Business support will be targeted to your group's specific needs. Where possible we aim to bring business support and development sessions direct to you

We have funding to pay for additional support and development and to cover the costs of transport and childcare

Business Support and Development

Examples of the kind of support that may be available to women within your host community
